

ATA Japan Spring Event
- World Expo 2025 Site Tour & Networking Reception –
Friday, May 16, 2025

You are invited to ATA Japan Spring Event - World Expo 2025 Site Tour & Networking Reception on Friday, May 16, 2025 in Osaka Japan.

The World Expo, held every five years, showcases new technologies and innovations addressing global challenges. With 158 participating countries, nine international organizations, and numerous domestic/foreign companies, the World Expo 2025, running from April 13 to October 13, 2025 in Osaka Japan, is expected to attract 28.2 million visitors, bringing together innovative technologies, cultural exhibits, and unique experiences under the theme "Designing Future Society for Our Lives."

The Expo will also feature numerous cutting-edge membrane structures, showcasing new materials and construction techniques. Attending the World Expo is an opportunity to see multiple fabric structures and pavilions on display that were designed by architects from around the world.

During the site tour, members from Taiyo Kogyo Corporation and Yamaguchi New Shelter Industry Inc., who contributed to the construction of membrane structures at the Expo, will provide insights and explanations about the pavilions and their innovative designs.

Following the tour, we will hold a Networking Reception and Special Presentation at Art Hotel Osaka Bay Tower. We are honored to welcome Ms. Hiromi Takatani from Taiyo Kogyo Corporation's Brand Strategy Promotion Division/Public Relations Department, who will give a special presentation on membrane structures at past and this year's World Expos.

We encourage ATA members to join us for this unique opportunity to explore the Expo, learn about cutting-edge membrane structures, and connect with industry peers in Japan.
